Garage Doors

DRS PREMIER Garage Doors

Blending the convenience of power operation with smooth, vertical opening and the benefits of insulation, the DRS Premier Garage Door provides the perfect solution for any garage. Manufactured from foam filled aluminium lath, available in twenty standard colours and fourteen wood effect foil finishes, you can be confident that there is a DRS Premier Garage Door to suit your requirements and enhance your property.

Controlled by a unique intelligent remote control system, operation is simply effortless.

Additional benefits include security, reduction in heat loss and exterior noise whilst freeing up valuable garage and driveway space. A vehicle can be parked within 50mm of the door without disrupting operation. Committed to offering the perfect garage door, all DRS Premier Garage Doors are manufactured using the highest quality components and safety is never compromised.

Visit our website for more details at www.drs-premier.com

Profile

DRS Premier Garage Doors are manufactured from heavy duty, twin wall, CFC free foam filled aluminium profile. The use of foam provides strength and proven insulation values, reducing heat loss and exterior noise.

Guide Section c/w Brush Strips

Our deep, heavy duty guide section provides safety and security against high winds and would-be intruders. The two brush strips protect the curtain from unnecessary wear and ensure smooth operation whilst also reducing heat loss and exterior noise.

Electrically Operated

Powered by a fully CE compliant motor with a manual override facility allowing the door to be operated manually in the event of a mains failure.

Canopy Cover

Supplying a full colour matched canopy as standard gives additional strength to the construction of the garage door whilst shielding and covering the moving parts.

Bottom Profile Rail

A heavy duty extruded aluminium bottom rail complete with a deep rubber seal provides additional strength and protection against adverse weather conditions.

Safety Edge

Optical constantly monitoring wireless safety edge system is supplied as standard with every DRS Premier garage door. Activation by physical obstruction immediately stops and returns the door to the fully open position. Our safety edge system is Category 3 compliant, fully complying with current legislation.

Auto-Locks

These heavy duty anti-lift devices offer security against would-be intruders by preventing the door from being opened when in the fully closed position.

Safety Brake

In the unlikely event of a motor failure our garage doors are fitted with a CE compliant anti-fall back device which prevents it from free-falling when in the open position.

Where there is limited headroom, a Compact version is available

Standard Specifications

Premier Remote Control

Remote control kit c/w 2 transmitters, courtesy light, push button and wireless optical safety edge system. Controlled by a fully CE compliant, intelligent rolling code radio remote control system with courtesy light, push button and two hand held transmitters. Rolling code technology generates a unique code every operation eliminating the possibility of code copying.

Transmitters Available

Dual Channel:

Two button, dual channel transmitter. Allows dedicated open/close operation of one garage door or sequential open/stop/close operation of up to 2 doors. QUALFOB2 supplied as standard with an option to upgrade to our Premium QUALPREM2 handset.

Four Channel:

Four button, four channel transmitter. Allows dedicated open/close operation of two garage doors or sequential open/stop/close operation of up to 4 doors. QUALFOB4 or QUALPREM4 handsets available.

Optional Accessories

Low Level Override:

The secure, external, low-level override system allows you to manually operate the door in the event of mains failure, should there be no other means of access to your garage.

Battery Back Up:

The battery back-up system is an uninterrupted power supply that allows you to electrically operate the door in the event of mains failure, should there be no other means of access to your garage.
